### Practice these study tips!

- 🍎 Your study area should be quiet and free from distractions.
- 🍎 Assemble books, notes and handouts beforehand.
- 🍎 Prioritize! Start with most difficult courses. Reward yourself with easiest or most enjoyable tasks.
- 🍎 Study no more than 30 – 40 minutes at a stretch. Most students retain more by taking short breaks.
- 🍎 Use a highlighter as you practice the SQ3R (Survey, Question, Read, Recite, Review) reading system.
- 🍎 Pay attention in class. Think! Take notes!
- 🍎 Review course material daily.
