

LATI Laptop Lease-to-Own Information

Benefits of Bookstore Lease-to-Own Laptops

- **On campus tech support** by the [Information Technology Department](#). LATI Technicians are available on campus for the leased laptops to troubleshoot computer and software problems.
- **Software use available through L.A.T.I. licensing** for leased laptops. Depending on the program, software can cost over \$2000 for students to purchase if they do not have a leased laptop. Even when leasing a laptop some programs may require students to purchase specific software.
- If a laptop is damaged or needs to be sent for repair, **a loaner laptop is provided** for those that lease laptops. If you own your own laptop, no loaners are provided and other companies may ask for the laptop to be sent in for repair, leaving you without a laptop to use for classes.
- **A 3 warranty with accidental damage protection** is provided on the leased laptops! Most companies will usually provide the 1 year warranty, but do not include the accidental damage coverage in their pricing.
- Laptop **payments can be made over 4 semesters** depending on the program in which the student is enrolled.
- There is **no fee for on-campus internet use** for leased laptops.

HP Laptop 6710B - Specifications

Ag-Bus/Ag-Prod, MMS, Financial Services, MLT, OTA, PTA, Aviation Maintenance Technology, Med/Fire/Rescue

HP Laptop nc8430 - Specifications

Computer Information Systems, Electronics / Robotics

HP Laptop 8510W - Specifications
