

## SECTION 609 - MOTOR VEHICLE AIR CONDITIONING (MVAC) CERTIFICATION

### This course will cover:

- 609 Certification to buy refrigerant of 2 pounds or more is required by law effective January 1, 2018
- Better techniques for leak testing
- Updates on the R1234YF refrigerant

### Meet Your Instructor:

Dan has a strong background in ag, diesel, and the energy industry. He's farmed all of his life, owned his own shop, and – most recently – worked for an ethanol plant near Aberdeen. Dan is a LATI diesel graduate and is from Arlington. He lives southeast of Webster and raises South Dakota Certified beef cattle. He is certified to train 609 Motor Vehicle Air Conditioning Certification classes and currently teaches this course and others to Lake Area Technical Institute diesel students.
