TECHNICAL COLLEGE

Precision Machining STUDENT LEARNING OUTCOMES

The graduate of this program will be able to:

1. Demonstrate competence in operating manual machining processes.
2. Set up and operate CNC machines.
3. Read and interpret blueprints for machining.
4. Demonstrate proper use of mathematical measurement and inspection equipment.
5. Display teamwork on class project.
6. Demonstrate proficiency in troubleshooting applications.
7. Demonstrate competency in use of CAD and CAM software.
