

# SOCIAL WORK PROGRAM LEARNING OUTCOMES

---

1. Demonstrate standards of professional behavior, confidentiality, and respect required when working with diverse populations.
2. Apply ethical decision-making based on the NASW Code of Ethics.
3. Display an awareness of community resources and make appropriate referrals to those resources.
4. Apply the knowledge, values, strategies, and skills of the Social Work profession at an introductory level.
5. Evaluate one's own attitudes, beliefs, motives, biases, and limitations.
6. Demonstrate case management skills, including effective documentation, assessment, and treatment planning.
